SILAGE BAGGING SOLUTIONS

Heavy Duty screw auger makes sure all feed inside the bag will be very well compacted.

9FT Silage Bags characteristics. (standard)

- Capacity from 130ton to 340tons of silage according to length.
- Weather resistant bags.
- Protection against UV rays
- Keeps low the temperature inside the bag.
- Available in many places around of the

SILAGE BAGGING SOLUTIONS

Brake system activated by hydraulic hand pump integrated in the machine with pressure gauge for easy set up to achieve best results when compacting the bag.

Adjustable axle height for optimal suiting to your farmland.

New high pressure double caliper disk brakes.

Technical specifications	
Machine Height	12.6ft
Machine Width	10ft
Bag Hoist	Yes
Drive System	540RPM
Brake System	Yes
Driveline Protection	Shearpin
Conveyor width	35"
Ready to Tow Position	Yes
Auger Diameter	18.5"
Auger type	Heavy duty
Tractor power requirement	135HP
Tons per hour	40T/h
Capable of bagging	Grains/ Silage
